Gowanda and TTI Sign Distribution Agreement

TTI Now Stocking Gowanda Inductors for RF, Microwave & Power Applications

Gowanda, N.Y. (USA) - [Gowanda Electronics](http://www.gowanda.com), a designer and manufacturer of high performance electronic components for demanding applications, announces it has signed a distribution agreement with [TTI, Inc.](http://www.ttiinc.com) (Fort Worth, Texas), a leading specialty distributor of electronic components. TTI is now an authorized North American distributor of Gowanda's inductors and chokes designed for RF, microwave and power applications. Market sectors utilizing these components include: military, aerospace, avionics, communication, medical, transportation (rail safety) and industrial (harsh environments).

"We are excited about our partnership with TTI and look forward to leveraging their expertise in the distribution of electronic components with our expertise in the design and manufacture of high performance inductors, to address the needs of the global electronic design community," said Donald McElheny, President of Gowanda. "The depth and breadth of TTI's distribution network will assure that Gowanda's high performance inductors are readily-available to electronic engineers designing next-generation products for industrial, military and medical applications around the world," added McElheny.

TTI is now stocking numerous inductor series for immediate shipment. To learn more, visit: <https://www.ttiinc.com/content/ttiinc/en/manufacturers/f-i/gowanda.html>

In addition to standard products, Gowanda Electronics utilizes its custom product capabilities to design solutions that meet the specific requirements of an application. TTI will be involved in developing such custom product opportunities through its extensive network of Original Equipment Manufacturer contacts.

For more information about Gowanda please contact Denis Kohlhagen, VP of Sales at Gowanda, at +1-716-532-2234 or email sales@gowanda.com. For more information about TTI please visit www.ttiinc.com.

About Gowanda Electronics

Gowanda Electronics (www.gowanda.com) is a privately held company that designs, manufactures and supplies precision electronic components for RF, microwave and power applications. Components include standard off-the-shelf and custom-designed inductors, chokes, coils, conicals, toroids, transformers and magnetic devices in surface mount and thru-hole configurations that are used in a wide variety of electronic applications. Gowanda's products are used primarily by OEM companies and other entities interested in high performance electronic component solutions for the equipment and devices they manufacture. Applications include use in industrial automation & control equipment, instrumentation, medical & diagnostic equipment/devices and test & measurement equipment. Such products are used in a broad range of industries including aviation/aerospace, data processing, defense, education, health care, process & assembly industries, security and telecommunications. Gowanda's customers include Fortune 500 companies and other significant players in these global markets. The company is certified to AS9100, ISO9001 and ISO13485 quality management standards and offers RoHS compliant products as well as lead-containing components for QPL military/defense and other demanding requirements. Non-magnetic inductors are also available. Gowanda Electronics is an affiliate of Gowanda Components Group.

About TTI

TTI, Inc., a Berkshire Hathaway company, is an authorized, specialty distributor of electronic components. Founded in 1971, the emphasis on a broad and deep product portfolio, available-to-sell inventory and sophisticated supply chain programs have established TTI as a distributor of choice to manufacturers in the industrial, defense, aerospace, transportation, medical, and communications sectors worldwide. TTI and its wholly owned subsidiaries, the TTI Family of Companies, Mouser Electronics, Sager Electronics and TTI Semiconductor Group employ over 7,000 people in more than 133 locations throughout North America, South America, Europe, Asia and Africa. Globally, the company maintains over 2 million square feet of dedicated warehouse space housing over 850,000 component part numbers. For more information about TTI, visit www.ttiinc.com.
